

VIRAJ DHANUSHKA

Matara, Sri Lanka +94714897508 smviraj@gmail.com Portfolio LinkedIn GitHub

PERSONAL STATEMENT

A motivated, adaptable and responsible computer engineering undergraduate seeking opportunities to utilize professional and technical skills through work experiences in this field. Have good knowledge of web / mobile application development and technologies related to it. Highly interested in learning and teaching new technologies. Very keen to do projects and organize activities with team effort.

EDUCATION

University of Peradeniya, Sri Lanka

2017 - Present

- BSc. Engineering in Computer Engineering – **Second Class (Lower Division)**
- ETIC Facilitate Certificate - Engineering Technology Incubation Center provide an ecosystem where the successfully completed projects will be incubated into products of commercial value
- Active member at IEEE SB, ACES, University Explorers' Club, AIESEC in Kandy

National Institute of Technology Calicut, India

2019

- Scholarship (2 weeks of training under a grant awarded by India Sri Lanka Foundation)
- Studied Numerical Methods for ODEs with MATLAB and Computer Architecture

Rahula college, Matara, Sri Lanka

2001-2015

- GCE A/L in Physical Science – Combined Mathematics (A), Physics (B), Chemistry (B), English (A)
- Active member at ICT Society (Organizer), Science Society (Organizing Committee member)

PROJECTS

Projects Done for Academic Evaluations ([Link to All the Projects](#))

Food Recommendation System Using Machine Learning for Diabetic Patients (Team Lead) [Final Year Research Project - Ongoing]

Recommend proper foods for diabetic patients in the context of nutrition & food characteristics by developing a machine learning based intelligent application

Flutter, Azure Machine Learning Studio, Python, scikit-learn, Open Food Facts

Digital Signage Based User Targeted Advertising (Team Lead)

A signage platform that uses Deep Learning techniques to display the most matching advertisements for people considering their age and gender

Flutter, Firebase, OpenCV, Python, Arduino, Bash, MQTT, Raspberry Pi, NodeMCU, Bootstrap, Drupal, PHP, MySQL

Sale Library (Team Lead)

A web platform that allows users to buy, exchange, sell books with advanced searching, filtering, sorting techniques and chat functionalities

Verilog Based CPU (Individual)

A 32-bit CPU that supports simple instructions with caching

Verilog HDL, C

Prototype of Arithmetic and Logic Unit (Team Lead)

An 8-bit ALU which is designed using Proteus and build using logic gates

Proteus, PCB Manufacturing

Auction System (Team Lead)

A server and a client interface implementation to demonstrate bidding in the stock exchange

Java

Projects Done Apart from the University

Cloud Security Status Monitoring Tool (WSO2 Internal App)

A full-stack web application to monitor SAST pipelines in GitHub repositories

React JS, Material UI, Ballerina Cosmos DB, Choreo, Asgardeo

WSO2 - Ballerina Extended Library (Open-Source Contributor)

Fix issues in Cosmos DB connector and introduce new features to GitHub Connector

Ballerina, CosmosDB Connector, GitHub Connector

Find Delivery (Team Lead - Available on Google Play Store)

A mobile application to find closest shops to streamline home delivery of products using cloud functions driven push notifications

Flutter, Firebase, API Integration (Google Maps API)

OpenEMR-Mobile App (Open-Source Contributor)

Contributed project for Google Summer of Code - 2021

Flutter, Firebase

Food Point (Freelancer)

A mobile application for a restaurant

Flutter, API Integration

Sales App (Freelancer)

A mobile application to analyze sales details using different graphs

Flutter, API Integration

Soil Moisture Based Smart Water Controlling System (Team Lead)

An automated irrigation controlling system to monitor using a mobile application

Flutter, Firebase, Arduino, NodeMCU

Dengue-Stop (Open-Source Contributor)

Contributed project for Google Summer of Code - 2020

Flutter, Firebase

Uniboard (Team Lead)

A mobile app with notice classification and cloud functions driven push notifications

Java, Firebase

AWARDS & ACHIEVEMENTS *(Link to All Participated Competitions)*

Ballerina - WSO2 Global Hackathon 2022 [Individual] <i>Organized by WSO2 as an Internal Hackathon for employees</i>	Consolation Prize Winner <i>Rank 44</i>
Microsoft Imagine Cup 2022 [Team Lead] <i>Organized by Microsoft</i>	World Finalist <i>Among the top 48 teams in the world</i>
Microsoft Identity for All 2022 [Team Lead] <i>Organized by Microsoft</i>	Winner (Honorable Mentions) <i>From 450+ global participants</i>
Microsoft Virtual Hackathon 2022 [Team Lead] <i>Organized by Microsoft</i>	Semifinalist (Phase 1) <i>Among the top 34 teams from 15 countries</i>
Special Call for Proposals Related to CoViD'19 [Individual] <i>Organized by IEEE R10 in 2020</i>	Winner <i>Among the top 5 projects of the largest IEEE region</i>
National Ingenuity awards [Team Lead] <i>Organized by SLASSCOM in 2021</i>	Best Innovative Project - Central Province
Undergraduate Inventor of the Year (UIY) 2021 [Team Lead] <i>Organized by IESL in 2021</i>	Country Rank: 3 Best Short Video (Country Rank: 1)
Hackfest- Inter-University Hackathon [Team Lead] <i>Organized by General Sir John Kotelawala Defense University, 2021</i>	Country Rank: 1
versusCOVID- Inter-University Hackathon [Individual] <i>Organized by University of Peradeniya in 2020</i>	Country Rank: 2
ACES Hackathon- Intra-University Hackathon [Team Lead] <i>Organized by University of Peradeniya in 2019</i>	1st place (20+ teams)
hackX- Inter-University Startup Challenge [Team Lead] <i>Organized by University of Kelaniya in 2020</i>	Finalist (100+ teams)
ACES Coders - Largest Algorithmic Coding Competition in Sri Lanka <i>Organized by University of Peradeniya in 2020</i>	Country Rank: 8
Hakathon Xtreme - Algorithmic Coding Competition <i>Organized by University of Moratuwa in 2019</i>	Country Rank: 8
Sri Lankan Robotics Challenge - Robotics Competition <i>Organized by University of Moratuwa in 2015</i>	Country Rank: 2

SKILLS

Programming Languages	Python, Dart, Ballerina, Java, C, Haskell, Verilog, MATLAB
Mobile Applications	Flutter, React-Native, Java
Web Applications	React JS, Material UI, Drupal, WordPress, Bootstrap
Cloud Computing	Firebase, Azure Cosmos DB, Azure App Service
Embedded devices	Raspberry Pi, Arduino, NodeMCU
Other Skills	Git (GitHub), Docker, Android Studio, VS Code, IntelliJ IDEA, Touch Typing

EXPERIENCE

WSO2 Lanka (Pvt) Ltd [2022 - 06 month Internship]	Software Engineer Intern
Thinkhash (Pvt) Ltd [2022 - 05 months]	Contract Full Stack Developer
Self Employed [2021 - Present]	Freelancer / Python Instructor

EXTRA CURRICULAR ACTIVITIES

Microsoft Learn Student Ambassadors program [2021 - Present]	Alpha / Beta Student Ambassador
IEEE Xtreme [2021 - 2022]	Ambassador
IEEE Student Branch - University of Peradeniya [2021 - 2022]	Program Committee Lead
Project Nenathambara [2021 - Present]	Volunteer
IEEE SLSYWC'20	Team Lead
IEEE Region 10 SYWL Congress 2020	Speaker
OpenTech Summit Sri Lanka 2020 (OpenTech and FOSSASIA)	Volunteer
AIIESEC in Kandy, Blue Marble 15.0 [Term 19/20]	Organizing Committee Vice President
